

Saving Wai through Watershed Partnerships

> 50% LOST

More than half of Hawaii's native forests have been severely degraded or lost.

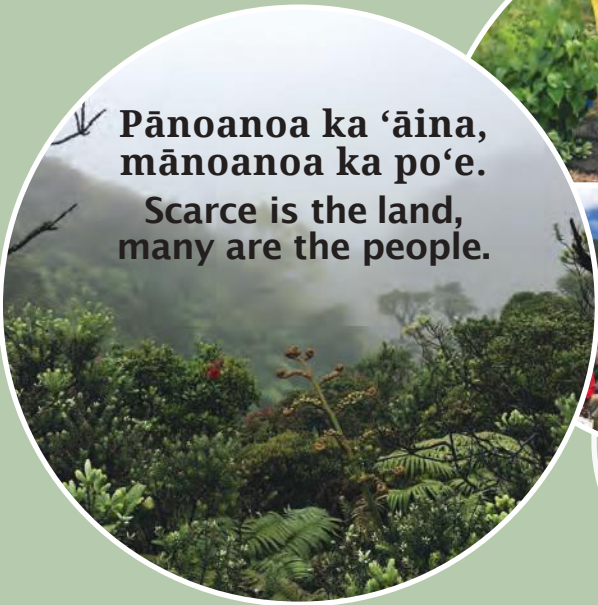

THREATENED

Hawaii's watersheds battle a multitude of threats: wildfires, invasive plants and animals, compromised biosecurity, and climate change

**Pānoanoa ka 'āina,
mānoanoa ka po'e.**
Scarce is the land,
many are the people.

MĀLAMA

10 Watershed Partnerships, 5 islands, 2.1 million acres, 144,000 acres fenced, 95 partners collaboratively protecting our watersheds

KULEANA

Mālama 'āina is EVERYONE'S kuleana

Watershed Partnerships Leverage State Funds by 150%

\$14.1B

**State of Hawai'i
Operating Budget
FY 2018–2019**
